Subject: Edgewood Avenue Reconstruction Project
Commencement of Engineering Work

Dear Resident:

The Village of La Grange is pleased to announce the commencement of engineering work for the Edgewood Avenue Reconstruction Project. On February 11, 2019 the Village Board approved an agreement with the civil engineering firm Civiltech Engineering, Inc. to design and develop preliminary plans and cost estimates for alternatives. This project is a cooperative effort between the Village of La Grange and Cook County.

The scope of engineering services for this project includes data collection and coordination, alternatives assessment, and preparation of plans, specifications and cost estimates for the reconstruction of Edgewood Avenue from 47th Street to 52nd Place. A public meeting will be held later this summer once the preliminary engineering plans and cost estimates have been completed. Alternatives will be presented at the meeting and public input on the project will be received. Please note funding for construction of this project has not yet been identified.

As you may have noticed, surveying work has already begun. An accurate survey is important in order to determine the existing topography of the area and to properly design the project. While not anticipated, if the surveyors require access to your property they have been directed to alert each property owner by knocking on the door before accessing your property.

Thank you in advance for your patience and cooperation. If you have any questions, comments or concerns, please do not hesitate to call me at (708) 579-2300 x250.

Sincerely,
VILLAGE OF LA GRANGE

Ryan Gillingham, P.E.
Director of Public Works
