

# **Would you like to join the conversation on recycling in La Grange?**

**THURSDAY EVENING, JUNE 13, 7:00 AT LA GRANGE VILLAGE HALL AUDITORIUM**

Please join the La Grange Environmental Quality Commission as we begin a discussion on the state of recycling and waste disposal in our region. Where does it go? Who is using it? How much from our bins gets recycled?

Find out at a recycling/waste hauling presentation at 7:00 on Thursday evening, June 13, in the Village Hall auditorium on the second floor. Our Village waste hauler and their material recycling partner will be on hand with other guests to help us understand the changes in the recycling/waste hauling market and how we can all work to reduce waste and contamination in our recycling. We will also discuss the future of recycling and look at what some other communities are doing. Bring your questions and join us!
