

Village of La Grange

CONSTRUCTION NOTICE

Project: FY2019-20 Ashland Avenue and Blackstone Avenue
Water Main Replacement Project

Issue Date: June 12, 2019

Contractor: Suburban General

Work Area: Ashland Avenue from Harris Avenue to 47th Street
Blackstone Avenue from Cossitt Avenue to 47th Street

The purpose of this notice is to provide an update on the Ashland Avenue and Blackstone Avenue Water Main Replacement Project.

Blackstone Avenue - The new water main on Blackstone Avenue from 47th Street to Cossitt Avenue has been installed, pressure tested, chlorinated and put into service. The individual water service transfers from the old water main to the new water main will be finished this week. The last phase of the project is to connect the new water main to the existing water system at each intersection and to abandoned the old water main. The water main interconnections will require a temporary disruption of water service to each block. We will notify you in advance of the temporary disruption, which we expect to be approximately six hours. We anticipate the contractor to be finished with the water main work in the next several weeks.

Ashland Avenue - The new water main has been installed and put into service on Ashland Avenue from 47th Street to Elm Avenue. The contractor has begun transferring water services from the old water main to the new water, and will continue water service installations over the next month. The contractor will also be working on installing the remaining water main from Elm Avenue to Harris Avenue over the next several weeks, which includes directionally boring the new water main under Cossitt Avenue.

Roadway Reconstruction - We anticipate that roadway reconstruction will begin in early July starting on Blackstone Avenue. More information on the roadway portion of the project will be provided once the water main projects are completed and exact schedules have been finalized.
