

# Village of La Grange

## CONSTRUCTION NOTICE

### ComEd Underground Cable Replacement Edgewood Avenue

November 21, 2011

Dear Residents:

We would like to advise you that ComEd has informed the Village that construction work within the public right-of-way on Edgewood Avenue will start on Monday, December 5, 2011. This work is being performed by INTREN, Inc. on behalf of ComEd. Work will include the replacement of approximately 1,115 feet of underground cable on Edgewood Avenue between 51<sup>st</sup> Street and Birks Court. This work has been identified to help improve ComEd system reliability in your area as a result of the severe storm cycles in 2011. The Village continues to work closely with ComEd to help facilitate ongoing equipment upgrades and other targeted improvements throughout La Grange.

The contractor has indicated that construction work will take approximately one week. Please be advised ComEd has indicated that residents should not experience any outages while this work is being performed. Once the new cable has been installed, ComEd will switch customers over to the new line. Please note access to all driveways and roadways will remain open during construction.

Thank you in advance for your patience and cooperation. We will work with INTREN, Inc. and ComEd as much as possible to minimize the inconveniences associated with this project. Should you have any questions about this project please contact Mr. Sean Hughes with INTREN, Inc. at (815) 482-5151. If you have any other questions, please do not hesitate to contact the Department of Public Works at (708) 579-2328.

Sincerely,  
VILLAGE OF LA GRANGE
